

Practice 5-8

Ratios and Probability

You spin the spinner at the right. Find each probability.

1. $P(A)$ _____
2. $P(B)$ _____
3. $P(C)$ _____
4. $P(A \text{ or } B)$ _____
5. $P(B \text{ or } C)$ _____
6. $P(A, B, \text{ or } C)$ _____

A bag of uninflated balloons contains 5 red, 9 blue, 16 yellow, and 8 green balloons. A balloon is drawn at random. Find each probability.

7. $P(\text{red})$ _____
8. $P(\text{blue})$ _____
9. $P(\text{yellow})$ _____
10. $P(\text{green})$ _____
11. What is the probability of picking a balloon that is not yellow?

12. What is the probability of picking a balloon that is not red?

Solve.

13. a. You are a volunteer dog walker at the local animal shelter. Of the 413 dogs housed at the shelter this week, three are basset hounds. If you are assigned to walk a dog at random, what is the probability that you will walk a basset hound?

- b. On Wednesday morning, one basset hound and 14 other dogs are adopted. Find the probability that one of the remaining dogs is a basset hound.

14. A box contains purple, green, and red pens. If you randomly select a pen, $P(\text{red}) = 0.36$. Find $P(\text{purple or green})$. If there are 150 pens in the box, how many of the pens are red?
